

# SECURITY FENCE CO.

*Where Safety and Beauty Come Together*

Since 1914, Security Fence Co. has been a leader in the design, fabrication, and installation of distinctive quality fences of all kinds across New England.

## Custom Design & Craftsmanship

At Security Fence Co., our mission is simple: To produce the finest fences and yard accents available and provide customers with superior service at every turn.

## Quality Installation

We succeed in achieving our high standards because we have a top-notch team of craftsmen and installers with over 130 years of collective experience in the fence industry, and a dedicated cadre of sales people and office administrators committed to understanding how best to meet your needs.

## A History of Family & Tradition

## Satisfaction Guaranteed

We invite you to tour our company: visit our outdoor showroom and production facilities, scan the pages of our web site, invite us to your yard for a free design consultation and product presentation. We guarantee that you'll like what you see!

### Custom Design & Craftsmanship

Our fence products include cedar, vinyl (PVC), ornamental aluminum and steel, wrought iron, and chain link. Our yard accents include arbors, pergolas, lamp posts, mailbox posts, and sign posts. All of these products can be custom designed, built to your exact specifications. The prevailing attitude in our wood, vinyl and metal shops is clear: We can build anything!

### Quality Installation

Security Fence Co. installers are professionally trained to employ 'best practice' installation and safety approaches. Our crews take great pride in their work; they treat each installation as if it were for their own homes. We are committed to leaving each yard looking significantly better than when we first found it.

### A History of Family & Tradition

We are a family-owned business and have been for over 90 years. In that time, we have installed over 10 million feet of our own Security fences. As one of the oldest fence companies in the country, each new fence that we install joins a rich history; each new customer becomes part of the Security Fence Co. extended family.

### Satisfaction Guaranteed!

We take great pride in our work. If you are not satisfied, neither are we. We work tirelessly to ensure that we deliver on our promises. Our many repeat customers and frequent unsolicited thank you notes are testament to that commitment.

### Financing Available

In partnership with Capital One, Security Fence Co. is pleased to offer financing. With a quick approval process, you can get exactly the fence project you want at great rates and flexible terms designed to fit any budget.

Security Fence Co. is certified as a disadvantaged business enterprise (DBE) and a woman-owned business (WBE) at the state and federal level.

# SECURITY FENCE CO.

*Where Safety and Beauty Come Together*

# CEDAR

Cedar is our wood of choice. We use the finest grade of northern and southern white cedar and western red cedar for our wood fences, gates, arbors, pergolas, and related products. Cedar is the superior choice for fencing because of its beauty, practicality and versatility. Cedar boasts a creamy blond or red hue that blends with any décor as it ages to a silvery gray color. It is naturally resistant to rot and insect damage, and is less likely to shrink or warp.

### Craftsmanship

With a fully-outfitted wood shop and a team of dedicated craftsmen, we can fabricate any fence for any situation.

The quality standards that guide us and the finishing touches we employ set our fences apart.

### Distinctive Design

The safety and security offered by our fences is matched only by the range of designs available – from solid privacy panels to decorative picket fences – the list of offerings is limitless.

### Pre-staining

Many homeowners prefer that their fences be stained to a distinguishing color rather than leaving them untreated.

Security Fence Co. uses high quality acrylic exterior latex stain in a multitude of different colors to match your home and exterior décor. We pre-stain the fences and apply touch-ups in the field to minimize damage to your landscape while ensuring a 'like new' look.

# VINYL

With strength, durability, and virtually no maintenance, vinyl fences, railings and decking are an increasingly popular choice, designed specifically to withstand the test of time.

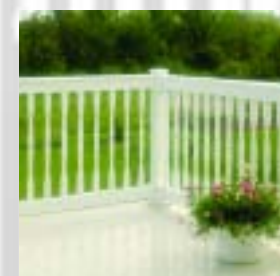

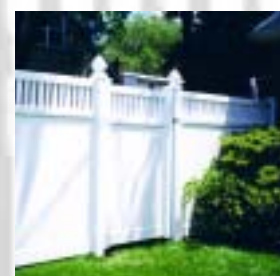

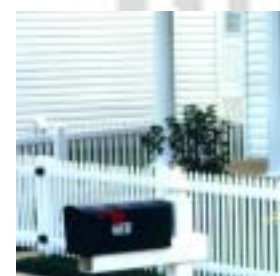

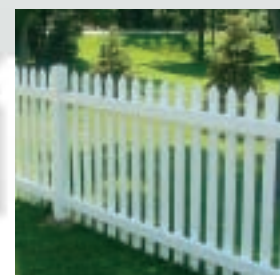

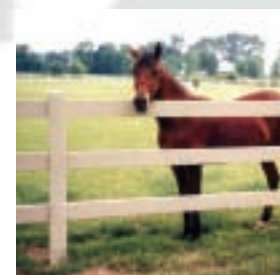

### Built To Order

We buy vinyl "profiles" like lumber and use the latest CNC-router technology. We fabricate in our own Security Fence Co. vinyl shop to control the design process and ensure we exceed our quality standards and your expectations.

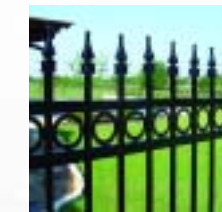

### A Lifetime of Value

Vinyl fence products never need sanding, stripping or resealing. At Security Fence Co., we partner with only the best vinyl manufacturers, offering superior engineering, manufacturing expertise, innovative polymer and titanium compounds, and extensive product testing. And, our vinyl fencing is backed by a transferable Limited Lifetime

Warranty against peeling, flaking, blistering, corroding, rotting and discoloration.

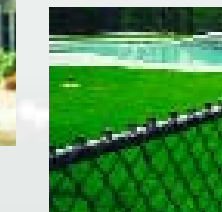

# ORNAMENTAL

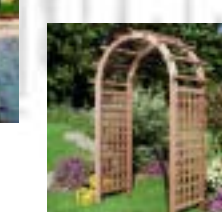

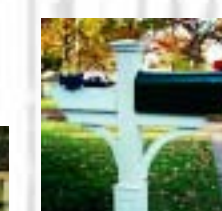

Decorative fences constructed from aluminum and steel offer the 'look and feel' of Old World wrought iron without the maintenance issues or exceptionally high price tag. In a range of styles and colors, ornamental aluminum and steel fencing is a popular choice to accent a garden, patio or landscape, or to enclose a pool area without shielding the beauty of the environment.

# CHAIN LINK

When security and price are more important than style or aesthetics, a chain link wire mesh fence is a practical choice. It is often used to enclose a large perimeter yard, divide a heavily wooded area, or secure a pool. Chain link fencing is available in the traditional galvanized (zinc) finish as well as the increasingly popular vinyl-coated color finish (commonly available in black, brown, green, and white) at heights from 36" to 144".

# YARD ACCENTS

Security Fence Co. also offers a broad range of additional products to further enhance your outdoor living areas. From garden furniture to lamp posts and mailbox posts; from arbors or pergolas to flagpoles and sheds, Security Fence Co. seeks to accent your exterior décor with yard furnishings of distinctive style and quality.
